SITUATION	
Current Situation:	Last night crews continued to make good progress on strengthening containment lines. The fire growth has diminished. Fire suppression repair has begun in an effort to minimize the effects of the fire's damage. A Damage Inspection Team continues to survey the fire area to assess the extent of damage. Residents are asked to use caution when driving in the fire area, as personnel are still actively working in the fire area. We are asking everyone to use extreme caution and be prepared, remember "Ready, Set, Go". For more information on how to prepare for wildfires, go to www.readyforwildfire.org.
Evacuations:	Mandatory Evacuations have been downgraded to Advisory, and only residents with proper identification will be allowed back into the area. These areas include Gold Run and Hidden Hills Drive as well as the Cheney Creek Drainage East of Devils Corral. All other Evacuation Advisories will remain in effect.
Evacuation Centers:	The Red Cross shelter has closed, however they are prepared to reopen should the need arise.
Road Closures:	All road closures and traffic control points have lifted.
