## RESOURCES

Engines: 978	Water Tenders: 52	Helicopters: 27	Air Tankers: 0	Hand Crews: 152
Dozers: 79	Other: 5	Total Personnel: 7851		

## SITUATION

<b>Current Situation:</b>	<p>Extreme fire behavior oscillating between wind- and plume-driven runs will continue to hamper control efforts. Firefighters will remain engaged in structure defense operations and scout for opportunities to establish direct perimeter control. Fire will continue to threaten the communities of Santa Barbara, Carpinteria, Summerland, Montecito and surrounding areas. Fireline construction to the north of these communities will continue. Improvement of the Camino Cielo for use as a control line will continue. Contingency groups will improve existing fuel breaks in Santa Barbara County, particularly in the areas of Windy Point and Foothills. Direct line construction, where possible, will continue on the northern side of the fire as well as the establishment of secondary line. In previously burned areas, continued mop-up operations will occur in order to expedite repopulation efforts. The area between Fillmore and Ventura along Highway 126 will remain in patrol status. Strengthening of firelines around the Ojai Valley area will continue, as communities will remain threatened by residual hot spots. In the east, outlying areas of Fillmore will remain threatened. Fire personnel will work to construct direct fireline with the support of aerial resources where possible on the east side of the fire. Scouting for establishment of indirect fireline will continue where needed.</p>
