Civilian Injuries/Fatalities: None		Firefighter Injuries: 2	Firefighter Fatalities: 1
Structures Threatened: 1,050	Structures Destroyed: 157 residences / 120 other	Structures Damaged: 13 residences / 24 other	

CURRENT SITUATION SUMMARY

Today the Ranch Fire burned actively in the northeast portion. The fire growth has been moving north/northeast for the past several days. The northwest portion of the fire had backing activity but was holding to the road system. Firing operations are planned for this evening as weather permits. Warming and drying trend continues with near single digit afternoon relative humidity, along with very poor recoveries. Line construction and mop up continue with hand crews and dozers. Helicopters continue to be a vital tool in this firefighting effort. Two helibases and two mobile retardant plants are located on the fire lines of the Ranch Fire. The southern portion of the fire remains in patrol status as crews continue with suppression repair and mop up.

The River Fire had no movement. Suppression repair along with patrol will continue on the River Fire.

CURRENT SITUATION
