SITUATION

| | |
|----------------------------|---|
| Current Situation: | The Rocky Fire containment continues to grow and you may see several small flare ups within the interior. Steep and rugged terrain is making it difficult for firefighters to make access to various parts of the fire. Damage assessment has been completed and firefighters continue to establish and construct containment lines and implement the suppression repair plan. “RESIDENTS ARE URGED TO STAY VIGILANT AND ADHERE TO ANY CHANGES IN EVACUATIONS AND ROAD CLOSURES” . Fire activity and direction can change at any time, be prepared and stay informed. With the elevated fire danger, we are asking everyone to use extreme caution, “Ready, Set, Go” . For more information on how to prepare for wildfires, go to www.readyforwildfire.org . |
