Current Situation:

There are 7 active fires ranging in size from 147 to 1,242 acres, for a total of 3,852 acres burned. Please note, this incident is now classified as a complex, and will be referred to as the Humboldt Complex. In addition, each of the 7 active fires has been assigned a name based on its geographical area. Fires will no longer be referred to with a number, and the overall incident will no longer be referred as the Humboldt Lightning Control Area (LCA).

Fires are burning in steep, rugged terrain with poor access and heavy timber fuels. Threat continues to commercial timberland. Much of the timberland is owned by small timberland and rangeland owners, who rely on timber and range revenue for a steady source of income. Fires threaten habitat for threatened and endangered species.

Road Closures:

Highway 36 is closed from the Humboldt/Trinity county line to State Route 3 in Trinity County.
