SITUATION				
<b>Current Situation:</b>	<p>This morning, the lake level sits at 32 feet below the emergency spillway height. Despite weather conditions, crews continue to work around the clock and are making progress with emergency repairs.</p> <p>Barges and cranes have been mobilized to remove debris and sediment from the diversion pool. These efforts are designed to restore the normal flow of water into the diversion pool and through the Hyatt power plant.</p> <p>100,000 cfs of water continues to flow through the flood control spillway in an effort to accommodate anticipated inflow from upcoming storms. These storms are forecasted to bring colder temperatures and inflows are anticipated to increase to 45,000 cfs. However, lake levels will continue to decrease.</p> <p>DWR continues to aggressively monitor the status of the dam, spillways, related structures, and progress of repair activities.</p> <p>For information on lake conditions; including lake levels, inflows, and outflows you can visit the following website. <a href="http://cdec.water.ca.gov/cdecapp/resapp/resDetailOrig.action?resid=ORO">http://cdec.water.ca.gov/cdecapp/resapp/resDetailOrig.action?resid=ORO</a></p>			
<b>Evacuation Centers:</b>	<p>An evacuation center will remain open at the Silver Dollar Fairgrounds. All other evacuation centers supported by Butte County will be closed. Residents from other centers who are still seeking shelter, due to the Evacuation Warning, can go to the Silver Dollar Fairgrounds.</p>
