| STATUS | | |
|--|---|---|
| Incident Start Date: 02/07/2017 | | Incident Start Time: 2:00 PM |
| Incident Type: Weather System | | Description: Damage to the Oroville Spillway |
| Incident Location: Oroville Dam, Canyon Dr. & Oroville Dam Rd, Oroville, CA 95966 | | |
| Structures Threatened: None | Structures Destroyed: None | Structures Damaged: None |
| RESOURCES | | |
| Air Assets: 0 | Other: N/A | Total Personnel: 400 |
| Cooperating Agencies: Butte County Sheriff, Butte County CALFIRE, Oroville Police Department, CHP, Butte County OES, California State Parks, Caltrans, Oroville Fire Department, Butte County Public Works, PG&E, CAL FIRE, Army Corps of Engineers, Federal Energy Regulatory Commission, Oroville Hospital, Red Cross, California Conservation Corps, California National Guard, Bureau of Indian Affairs, CAL OES, Gridley-Biggs Police, and California Department of Fish and Wildlife. | | |
| SITUATION | | |
| Current Situation: | <p>The Department of Water Resources reduced the outflow from the Oroville Dam flood control spillway to 50,000 cfs, in an effort to support debris removal from the diversion pool, located near the spillway. This rate of flow remains consistent with DWR's established plan to continually manage lake levels, water flow, and support construction activities. Lake levels have decreased to 846 feet, 55 feet below the maximum level of the reservoir. Outflows are once again exceeding inflows.</p> <p>Work continues on the area below the spillway, the monoliths, access roads, and various eroded areas created by emergency spillway runoff. Rock, aggregate, and cement slurry continue to be placed into areas affected by erosion. This work will continue 24 hours a day.</p> <p>DWR continues to aggressively monitor the status of the dam, spillways, the Hyatt Power Plant, related structures, and progress of repair activities.</p> <p>For information on lake conditions; including lake levels, inflows, and outflows you can visit the following website. http://cdec.water.ca.gov/cdecapp/resapp/resDetailOrig.action?resid=ORO</p> <p>For more information on the Oroville Spillway Incident visit the following website; http://www.water.ca.gov/oroville-spillway/index.cfm</p> | |

Incident Update

| | |
|----------------------------|---|
| Evacuation Centers: | All evacuation centers supported by Butte County are now closed. |
| Road Closures: | <p>Oro-Dam East from Glen Drive to Canyon Drive. Oroville Dam Crest Road closed at the left abutment restrooms. Canyon Drive from Oroville Dam Blvd East to Royal Oaks Drive.</p> <p>Road Blocks/security checkpoints; Oro-Dam East at Glen Drive, Oro-Dam East at Canyon Drive Dam Crest Road at Spillway Access Road, Canyon Drive at Royal Oaks Drive</p> |
| Trail Closures: | <p>The Oroville Wildlife Area is still on high alert due to the dynamic conditions of current weather fronts moving in, road closures due to flooding, and ongoing spillway repairs. In order to maintain the safety of staff and the public, the wildlife area will remain closed (except for the Chico field office and Thermalito Afterbay).</p> <p>As of Thursday, 02/23/2017, Lake Oroville SRA partially opened areas surrounding the Thermalito Diversion Pool (Burma Day Use and Lakeland Day Use). The Spillway Launch Ramp will remain closed. This includes those portions of the Brad Freeman and Dan Beebe trails leading from the SRA's Visitor Center to the City of Oroville. California State Parks Rangers are providing roving patrols due to a large number of contacts in the closed area.</p> |
