When entering the evacuation warning area, please be cautious of emergency equipment and personnel as they are operating in and around the area. Please follow all posted speed limits.

When picking up animals from a shelter, please have your pink intake form and a photo ID. Upon returning home make sure you have food, water, and proper containment for your animals. High temperatures and fire damage can cause normal household items to become hazardous to you and your animals. Make sure your property is safe before returning home.

Reminder: An evacuation warning alerts people in an affected area of potential threat to life and property. People who need additional time should consider evacuating at this time. An evacuation warning considers the probability that an area will be affected and prepares people for a potential immediate evacuation order.
