

A: ASSETS AT RISK

The Tehama Glenn Unit has numerous Assets which would be considered at risk in the event of a large wildfire or other natural disaster. The top priority Asset is life and property. There are numerous communities scattered throughout the Urban Interface areas of both counties. Many of these communities have been recognized as communities at risk (see sub section B).

There are many important assets in the infrastructure category which are vitally important to millions of people's everyday lives. Tehama and Glenn counties both have large high Tension power lines running through them, both along the valley floor and in the foothills. These lines carry electricity to the Bay area and Sacramento. There are several communications towers in Tehama County which are repeater sites for both Law Enforcement and Fire Departments. These sites also carry the 911 service calls. Numerous High Pressure gas lines can also be found traversing the county underground.

The watershed value of the Tehama Glenn Unit is among the most valuable in the Western United States. These watersheds not only supply drinking and agricultural water to more populated areas, but are also vital to the states salmon restoration efforts.

Other Assets at risk include Timber in the mountainous areas, and grazing / agricultural in the lower elevations.

B: COMMUNITIES AT RISK

The “Communities at Risk” in Tehama and Glenn Counties listed in the table below are on the National Registry available at the following site:

http://www.cafirealliance.org/communities_at_risk_a-d.php.

FIRE THREATENED COMMUNITIES IN TEHAMA AND GLENN COUNTY

<u>No.</u>	<u>Community Name</u>	<u>Federal Threat¹</u>	<u>Hazard Level²</u>
85	Bend	×	2
257	Corning		3
283	Dairyville		2
350	Elk Creek	×	3
656	Los Molinos	×	2
678	Manton	×	3
706	Mill Creek	×	3
711	Mineral	×	3
813	Orland		2
835	Paskenta	×	3
840	Paynes Creek	×	3
920	Red Bluff	×	3
1204	Wilcox	×	2
1212	Willows		2

1. Federal Threat code of × indicates some or all of the wildland fire threat to that community comes from federal (e.g., US Forest Service, BLM, Dept. of Defense) lands.

2. Hazard Level code indicates the fire threat level, where two denotes moderate threat and three denotes high threat.
