### MENDOCINO COUNTY COOPERATIVE AERIAL FIRE PATROL

---

This year (2005) marks the 56th year of uninterrupted service by the CO-OP, the oldest aerial fire detection program in California. The Aerial Fire Patrol's early fire detection capability provides an important link in the protection of the lives and property of all Mendocino County citizens. YOU can play a vital role in keeping the Patrol in the air either by joining the CO-OP or by making a contribution.

The CO-OP Aerial Fire Patrol of Mendocino County has discovered over 961 fires since its beginning in 1950, including 18 fires in 2001, 6 fires in 2002, 12 fires in 2003, and 8 first reports in 2004. The Co-op Aerial Fire Patrol is a privately financed airborne fire lookout organized by subscribing landowners, and operated by an aircraft contractor in cooperation with the California Department of Forestry and Fire Protection (CDF). An elected Board of Directors provides policy for operation of the CO-OP and liaison with the CDF who is responsible for fire protection in all unincorporated areas of the county.

Flying at high altitudes when fire weather is dangerous, the Aerial Fire Patrol provides an essential means of early detection and reporting of wildfires not readily visible from ground patrols and local citizens. This aircraft is often the first to arrive at fires, giving exact location, fuel type, potential spread, and road access routes for fire crews. It also provides an essential service following lightning storms, holidays, and other times of high fire risk, or when dispatched on special fire assignment.

The CO-OP represents a multitude of interests to include watershed management, ranching, livestock, recreation, vineyards, subdivisions, and timber production. Federal and state lands are involved as well as a municipality and a utility. In 2005, ninety-three (93) owners and contributors (a record high) subscribed 666,820 acres throughout Mendocino County and northern Sonoma County.

Full participation of past subscribers ensures 80 days of aerial fire patrol flights across Mendocino County. Flights occur over the July 4<sup>th</sup> weekend and from August 1<sup>st</sup> to October 15<sup>th</sup>.
