

Severe Fire Weather

The weather in the unit is divided into two basic patterns. The northwestern area of the unit experiences a common coastal weather pattern with low clouds and fog which burn off in mid day to temperatures in the mid 70's to 80's. The eastern and southern area experience mild fog conditions, but clear early in the day and commonly produce temperatures in the 90 to 100 degree range. Winters are mild with rainfall from 7 to 30+ inches. Wind speed and direction is variable, but is predominantly northwest at 7-10 MPH.
