
GOAL AND OBJECTIVES

The overall goal of the San Bernardino Unit Fire Plan is to reduce total costs and losses from wildland fire in the Unit by protecting assets at risk through focused prefire management prescriptions increasing initial attack success and through engaged collaboration with local stakeholders and public agencies.

The San Bernardino Unit Fire Plan has five strategic objectives:

- 1) To create wildfire protection zones that reduces the risks to citizens and firefighters.
- 2) To assess all wildland areas, not just the state responsibility areas. The analysis will include all wildland fire service providers - federal, state, local government, and private.
- 3) To identify and analyze key risks and issues so that recommendations for changes in public policy may occur.
- 4) To have a strong Unit fiscal policy focus in order to affect the maximum of available funding sources for wildland fire protection projects.
- 5) To translate these analyses into “on the ground” accomplishments by focused collaboration efforts with public and private partners..
