

IV. Community Wildfire Protection Plans (CWPP)

In 2008, both Madera County and Mariposa County worked on completing Community Wildfire Protection Plans (CWPP). These plans were developed in response to the Healthy Forest Restoration Act of 2003 (HFRA). These plans were written by private contractors paid for by grants specifically earmarked for development of CWPP's. Madera County Community Wildfire Protection Plan was adopted by the Madera County Board of Supervisors on September 30th 2008. Mariposa County has completed their CWPP and was expected to be adopted by July 2009. The communities of Yosemite West and Foresta both located in Mariposa County have developed their own CWPP and can be seen from their respective websites.
