

## Pre-Fire Planning

KCFD is in the process of establishing each of the wild land-urban inter-face communities with a detailed structure protection plan. Each community, when completed, will have evacuation instructions, a medical plan, a communication plan, and a detailed map. Pre-fire boxes will be placed adjacent to the communities and will be easily located and identified for emergency responders to utilize. Each box will contain a set of the detailed maps including information needed when tasked with structure protection during a wildland fire. This information includes:

1. Roads and driveways  
Color Code for roads;  
Red = any type of engine  
Green = type 3 engine or smaller  
Yellow = type 4 engine  
Dotted Orange = mostly impassable or 4x4 only
2. Road names
3. Locked gates
4. Bridges, load limits
5. Heliports & Dip sites
6. Safety Zones
7. Special hazards
8. Staging areas
9. Addresses
10. Water sources
